Principal's Message

Fortunate is the child who is motivated and inspired by a dedicated teacher to develop to the fullest capacity his potential characteristics for a great service to his fellowmen. A teacher, who through unselfish devotion to children and youth, receives the truly great rewards of life.

"It behooves those who believe in education to bestir themselves mightily to make salaries for good teachers as well as facilities as attractive in the teaching profession as it is with other professions, else, your grandson may knock on the school house door only to find it closed.

Our plights of today are but our slights of yesterday. "

Tomorrow's children deserve more than a crash program in education.
